PURPOSE

Coding Changes

A new error code has been added to the Statement of Payment Error Code list. Code 1829 indicates that the service end date is greater than 370 days. This code will be used when a provider submits an invoice for payment that is greater than 370 days from the time period to be paid. Invoices greater than 370 days are payable only if it is an administrative error. An exception must be submitted for this error.

The abbreviation codes (PND, PD, REJ) used on the Statement of Payment are no longer abbreviations but rather are spelled out, i.e. Pend, Paid, or Rejected.

AFC Resident Survey Change

The requirement for completing the AFC Resident Survey (FIA-4750) has been **temporarily** discontinued. This will allow the program office time to revise the survey. Please return any surveys completed in 2000.
